CS-4 Chargers Football Company, LLC v. City of San Diego
Los Angeles Superior Court No. BC 306 758

REFERRED TO CLOSED SESSION ON TUESDAY, APRIL 20, 2004

ACA assigned: Les Girard

This matter concerns the litigation filed by the San Diego Chargers (Chargers) against the City of San Diego (City), and the City's related cross complaint against the Chargers, over the validity of the "trigger" notice delivered to the City by the Chargers in March of 2003 pursuant to the 1995 agreement for the use of Qualcomm Stadium (1995 Agreement). In closed session, the City's outside litigation counsel and the City Attorney will report on the status of the litigation and the status of any additional discussions with the Chargers concerning a proposal made by certain private citizens to end the litigation and modify the 1995 Agreement. The City Council may give further direction to its attorneys and consultants with regard to the matter.

The proposal made by the private citizens would generally 1) require the Chargers to play at Qualcomm Stadium through the 2008 season; 2) permit the Chargers to play at the stadium on a year-to-year basis thereafter, but the Chargers could terminate the lease and leave San Diego; 3) eliminate the "ticket guarantee"; 4) require the Chargers to pay a flat rent of \$2 million per year through the 2008 season, and for each season the Chargers play at Qualcomm Stadium thereafter; and 5) if the Chargers terminate the lease after the 2008 season, the Chargers would pay the remaining principle on the City's bonds issued to improve the stadium in 1997, with a reduction in that payment if the lease is not terminated until after the 2011 season.

CITY MANAGER SUPPORTING INFORMATION:

The City of San Diego has been identified by the federal Department of Homeland Security (DHS) as the "core city" for the San Diego Urban Area's participation in the FY 04 urban Area Security Initiative Grant Program (UASI). The Urban Area has been defined as the eighteen incorporated cities in San Diego County, the county and the related special districts. As the core city, San Diego will be the grantee and administrator of a \$10,418,116 homeland security grant to the San Diego Urban Area. The FY 04 UASI program provides financial assistance to address the unique equipment, training, planning and exercise needs of large, high-threat urban areas, and to assist them in building an enhanced and sustainable capacity to prevent, respond to and recover from threats or acts of terrorism. This program also provides funding to specific mass transit authorities to address security needs at these high risk critical infrastructure facilities and to promote comprehensive regional planning and coordination.

All funding must be allocated in support of the goals and objectives identified in the San Diego Urban Area Homeland Security Strategy that was recently developed under the FY 03 UASI grant program. A regional metropolitan area approach must be taken in the development and implementation of this program by involving core cities, core counties, contiguous jurisdictions and mutual aid partners. While the focus of this program is weapons of mass destruction (WMD) preparedness, the benefits will be seen in all of the emergency preparedness programs in the region. Any allocation of funds awarded via this program must be mutually endorsed by the City's Director of Homeland Security and the County's Director of the Office of Emergency Services.

Authorizing the City Auditor and Comptroller, upon advice from the administering department, to return excess funds, if any, to the appropriate reserves.

CITY MANAGER SUPPORTING INFORMATION:

In June 1997, the Zero Based Management Review recommended that the Water Department consolidate and relocate its office and maintenance facilities outside of downtown in order to reduce annual rent and operating costs by \$3,052,931. After an initial selection and interview process, Conwell Shonkwiler & Associates (CSA) along with DMG Maximus (DMG) were hired to develop a building program, concept plan, and construction budget for the project. In

July 1999, the City contracted with CSA to design this facility based on the building program and construction budget established by CSA and DMG.

In March 2000, CSA submitted 30 percent design documents that were \$14 to \$18 million dollars over the project's budget, the City directed CSA to redesign the project back to within the approved budget. After redesigning the project, the final design drawings were submitted and the Council authorized the project's advertisement. At the time of this approval, the design of the facility was complete, but City staff identified errors in the design that needed to be corrected before the project advertised to a low bid contractor. City staff notified CSA of these errors and CSA promised to correct the errors within several weeks. Approximately 8 months later, CSA submitted their corrected design which still had errors previously identified by City staff.

On September 18, 2001, the Council authorized the termination of a CSA's design services. The Council additionally authorized the filing of an action against CSA, and any other responsible parties, for the City's damages arising out of the Project. The Council further authorized the retention of outside counsel if necessary. The City terminated CSA's design services for cause on October 2, 2001.

Since that time, the City filed an action against CSA and DMG for breach of written contract and professional negligence. CSA also filed an action against the City for, among other things, breach of contract.

In CSA's lawsuit against the City, the City brought a successful demurrer and eventually motion for summary judgment disposing of all of CSA's claims against the City. In addition, the City brought a Motion for Award of Attorney's Fees. The Court granted the City's motion and awarded \$148,000 for the City Attorney's fees incurred in defending that action. CSA has filed an appeal and the briefing on the appeal is expected to be completed by the end of May 2004.

In the City's lawsuit against CSA, trial is set for July 30, 2004. In terms of damages, City will be making a claim for over \$5,000,000.

At the time of this Council's authorization for the termination of the consultant agreement and initiation of a lawsuit, the Council authorized the expenditure of \$500,000 in attorney's fees and costs. The City estimates that another \$450,000 for attorney's fees and expert costs will be needed to complete the prosecution of this case.

FISCAL IMPACT:

Funding in an amount not to exceed \$450,000 to cover professional services related to mediation and litigation support and \$25,000 in related expenses is available in Water Fund 41500, CIP-73-338.0, Water Department Central Facility for this purpose.

The Martin Luther King Junior Community Park is a thirty-five acre park located in the Southeastern San Diego community area at 6501 Skyline Drive. The existing community park includes amenities such as a recreation building, swimming pool facility, tennis courts, active and passive turf areas and parking. This project proposes the addition of the 11,300 square foot George L. Stevens Senior Center within 1.3 acres of the park. The procurement process for this project is design build. The functionality of the senior center was coordinated extensively with the community during the preparation of the bridging documents. The senior center would be a valuable addition to the community, disseminating information on nutrition and various services, as well as providing recreational, education and intergenerational activities.

In accordance with the process outlined in Article 2, Division 33 of the Municipal Code, T. B. Penick and Sons Inc., was selected as the successful design build team. The proposed agreement with the design build team would provide for the completion of the design and construction of the senior center.
